## Immediate Vacancy

### Aquatic Veterinarian

The AquaBioTech Group is looking for a qualified individual to work as an Aquatic Veterinarian developing challenge models and undertaking Quality control studies (Safety and Potency). The candidate would also be involved in all national and international research projects that the AquaBioTech Group and its partners are awarded.

#### Synopsis of position offered

A position within the AquaBioTech Group has arisen for a suitably qualified person to work on a variety of projects within the Group's diverse portfolio as an Aquatic Veterinarian. The duties include, but are not limited to:

- a) Study Trial Coordination
- b) Fish Pathogen Diagnostic
- c) Perform Quality Control Studies (Safety and Potency)
- d) Fish Health Management
- e) Fish Vaccination
- f) Challenges Using Fish Pathogens
- g) Study Reports
- h) Fish Sampling (Blood, organs)
- i) Documenting Study Trials
- j) Development of Challenge Models
- k) Other duties as assigned by the company.

#### Qualifications Overview

A successful candidate is likely to have a solid background in veterinarian practices with practical experience in one of the following: ecotoxicology, microbiology, biology, aquaculture. The individual is expected to have a DVM, DrVetMed, Doctorate in Veterinarian Medicine. Experience in laboratory operating procedures and GMP and GLP is also a bonus, but not essential as all training in these procedures will be provided.

The selected candidate will have to speak and write English fluently. Knowledge of any other languages would be considered an asset, although not essential. The selected candidate must have a clear passport with no travel restrictions, no legal convictions held at any time and be in possession of a clean driving licence.
