## Immediate Vacancy

# HVAC Mechanical Engineer

The **AquaBioTech Group** is looking for a qualified individual to work on the research, design, construction, and installation of HVAC mechanical equipment for various land-based aquaculture projects (Recirculation Aquaculture Systems) that the company is developing all over the world.

### Synopsis of position offered

The successful candidate will be leading a team of professionals and provide design expertise for our in-house aquatic facilities, as well as our international projects. The responsibilities of the selected candidate may include but are not limited to;

- Research, design, specification, definition, construction, and installation of HVAC mechanical equipment.
- Consult on HVAC system and equipment design for a wide range of projects, as needed to create and/or modify design parameters.
- Develop and supervise all aspects of the design, purchase and installation process, as well as analysing HVAC systems, design testing procedures and control equipment to assess the efficiency of operation.
- Communicate directly with clients to understand project requirements and design specifications, ensuring that the final product matches the client's requests.

Reporting directly to the head of the design and engineering department, the position is demanding requiring a person who is highly motivated and self-organised. The selected person must be prepared to work to very tight deadlines in isolated and multi-functional projects and in conjunction with a team of international staff based at our head-office based in Malta, as well as staff who are based at the project sites. The successful candidate must be available to travel at short notice.

### Qualifications Overview

The successful candidate is likely to have a solid background in mechanical engineering, preferably with at least a B.Eng. level of education, with experience in the HVAC mechanical engineering industry.

<b>Job Description</b>		<b>Ad No:</b>	<b>ABT 12 / 19</b>	<b>Rev #</b>	<b>1.1</b>	 <small>           \Files\hr\SHRAdminFiles\HRDocuments\HumanResources\Job Adverts\2019\NotPublishedYet\ABTG-HVACMechanicalEngineer -Feb-19.docx         </small>
<b>Prepared By:</b>	<b>MJG</b>	<b>Expected Start Date:</b>		<b>Q3 2019</b>		
<b>Approved By:</b>	<b>PRS</b>	<b>Last Revision Date:</b>		<b>April 2019</b>		

### Financial Package

The successful candidate will be offered a long-term, fixed-term contract with the company. The starting package offered for this position will be structured largely upon the chosen candidate, reflecting the experience the candidate brings to the company, but also in line with the cost of living in Malta.

### Application Procedure

Further information about the **AquaBioTech Group** and the services we offer can be viewed at [www.aquabt.com](http://www.aquabt.com). Applicants are required to submit a full *Curriculum vitae* in the **AquaBioTech Group** Europass format that **must** be downloaded from our website – **no other Cv formats will be accepted.**

Questions about the application should be directed to the Director of Admin & HR, on [hr@aquabt.com](mailto:hr@aquabt.com)
