Immediate Vacancy

Waste Water Engineer

The **AquaBioTech Group** is looking for a qualified individual to work as a waste water engineer on the design, development, coordination and reporting of various aquatic / aquaculture projects of the Group's portfolio.

Synopsis of position offered

A position within the **AquaBioTech Group** has arisen for a suitably qualified person to work on a variety of projects within the Group's diverse portfolio. The position is described as a Waste Water Engineer. The responsibilities of the selected candidate can be described, but are not limited to the following:

- Designing and commissioning of various types of water and wastewater treatment systems including calculations and specifications of materials and developing these designs in AutoCAD.
- Interpretation of various types of water and wastewater quality data and proposal of treatment solutions to be utilised in the treatment of freshwater, seawater and fish farm wastewater including sludge processing.
- Developing standard operating procedures (SOP's) for water sampling and quality analysis, as well as for the technology packages that we develop and deploy.
- Other relative duties in the field of water and wastewater engineering.

Reporting directly to the Design & Engineering Manager, the position is demanding requiring a person who is highly motivated and self-organised. The selected person must be prepared to work to very tight deadlines in isolated and multi-functional projects and in conjunction with a team of international staff based at our head-office based in Malta, as well as staff who are based at the project sites.

Qualifications Overview

A successful candidate is likely to have a good solid a background in engineering, preferably with experience / specialisation in water treatment and wastewater processing. The selected candidate will also be involved at a technical level in the overall marketing and promotion of the **AquaBioTech Group's** services activities. The selected candidate will have to speak and write English fluently. Applicants must be prepared to travel at short notice as part of international assignments the company is awarded.

Prepared By:	MJG	Expected Start Date:		Q1 2021		
Approved By:	SAH	Last Revision Date:		09-Dec-20		

Financial Package

The starting package offered for this position will be structured largely upon the chosen candidate, reflecting the experience the candidate brings to the company, but also in line with the cost of living in Malta and could include an accommodation package, if required.

Application Procedure

Further information about the **AquaBioTech Group** and the services we offer can be viewed at www.aquabt.com. Applicants are required to submit a full *Curriculum vitae* in the **AquaBioTech Group** Europass format that **must** be downloaded from our website – **no other Cv formats will be accepted**. Questions about the application should be directed to the HR Department, on hr@aquabt.com
